INFORMED CONSENT TO MANUAL OSTEOPATHIC TREATMENT

Manual Osteopathic Treatment is a non-invasive therapy for the treatment of conditions including neuromusculoskeletal and joint complaints. The proposed treatments may contain therapies such as gentle mobilization of the joints, muscles, connective tissue, fluids, viscera and nerve pathways.

Treatments include manual techniques where the practitioner places their hands on your body. This may involve contact whereby hands are placed on sensitive areas such as the chest wall, pelvic floor, and pubic bones. The removal of some items of clothing may be required if they are obstructive to certain techniques and manipulations. If you do not feel comfortable with any part of the procedure, please inform the practitioner. Techniques can be discontinued or modified as per consent.

I acknowledge and understand that the Manual Osteopathic Practitioner must be completely aware of my existing medical conditions. It is my responsibility to keep the practitioner updated on any medical concerns and the information provided is true and complete to the best of my knowledge. I also recognize that manual osteopathic treatment is not a substitute for medical treatments and/or medications. I understand that it is recommended that I work concurrently with any other primary medical professionals for any conditions I have.

It is your right and responsibility to inform the practitioner of your condition during the course of treatment. The practitioner reserves the right to discontinue services where it is apparent that your expectations and the type of therapies provided may not be compatible.

I understand that the results are not guaranteed. With this acknowledgement, I voluntarily give consent to Manual Osteopathic care and I am free to withdraw my consent at any time.

I hereby consent to the Manual Osteopathic Practitioner to provide treatment for the above noted purposes including assessments, examinations, and techniques which may be recommended.

I understand that a confidential record will be kept of the health services provided to me. This record will be kept confidential but if required, I understand that my Manual Osteopathic Practitioner may discuss my case with other healthcare providers and/or legal bodies if needed. I understand that information from my medical records may be analyzed for research purposes and that my identity will be protected and kept confidential.

By signing this form, I intend to this consent to cover the treatments discussed with me to deal with my physical, emotional, and mental conditions and for which I have sought treatment.
